

### YOUR TECHNOLOGY PARTNER

Finish Line IT offers a one-stop shop to save time, money and headache. We believe you should be able to get your technical questions answered immediately, without having to spend your day on hold. Your problem is our priority.

***"I've worked with many IT professionals through many companies over the years, and I've never worked with anyone as efficient, responsive and affordable as Finish Line IT."***

Sales. Support. Service.

# Solutions that work for your business.

HELPING YOU DISCOVER THE POWER OF TECHNOLOGY

Leveraging technology to save you time and money,  
and keep you connected no matter where you are.

Tired of working with multiple vendors for your printers, phone systems and network support? Now you don't have to. With Finish Line IT, one call does it all. Instead of spending the day on hold, you can focus on what really matters ... **growing your business**. With technology becoming more advanced every day, you need a reliable computer service partner you can trust.

## flexible solutions for your business needs

### IT SUPPORT SOLUTIONS

- WEB DESIGN
- SYSTEM SETUP
- REMOTE SUPPORT
- SERVER ADMINISTRATION
- REPAIRS AND UPGRADES

### VOICE COMMUNICATIONS

Save money with our phone systems and VoIP solutions, which allow you to use your existing Internet service to share voice and data on the same connection. Never miss a call with a call forwarding service.

### WEBSITE DESIGN

Give your business a sleek image with a Flash website, complete with animation and interactivity.

### SERVER MANAGEMENT

Regular maintenance includes checking for patches, updates, service packs and disk quotas. We continually monitor your system performance, errors, memory usage and other potential problems that can lead to downtime.

### REMOTE SUPPORT

In minutes, we can remotely connect to your computer to find solutions to get you back on track.

### CUSTOM SOLUTIONS

Finish Line IT offers customizable service plans with routine maintenance to proactively monitor and update equipment and backup data to prevent data loss. We offer flexible packages to meet every budget.

### DATA BACKUP

Instead of worrying about recovery, take an active approach by having a disaster prevention plan in place. We offer an affordable off-site backup storage solution so that your data is safe.

### NETWORK DESIGN

Our customized networks protect your data and bolster your productivity and communication. We optimize and streamline networks to maximize productivity while also offering voice and data over the same network.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?

We welcome the opportunity to earn your trust and deliver the best service in the industry.
